Flexal® Nitrile Exam Gloves

Powder-Free Non-Sterile Nitrile Examination Gloves

Flexal® Nitrile Exam Gloves offer an alternative to latex and other nitrile gloves currently available in the market today. They provide tactile sensitivity and protect the hands from potentially infectious materials.

Features and Benefits:

- Textured fingertips enable grip even when wet
- Helps deliver savings over most other nitrile exam gloves
- Tested for use with various lab chemicals and chemotherapy drugs¹

Cat. No.	Size	Pkg.
88TN01XS	X-small	200/bx, 2,000/cs
88TN02S	Small	200/bx, 2,000/cs
88TN03M	Medium	200/bx, 2,000/cs
88TN04L	Large	200/bx, 2,000/cs
88TN05XL	X-large	200/bx, 2,000/cs
88TN06XXL	XX-large	200/bx, 2,000/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Cornflower blue
- Nominal fingertip thickness: 4.2 mil (0.11mm)

¹ **Caution:** Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used.

Flexal® Feel Nitrile

Powder-Free Non-Sterile Nitrile Examination Gloves

Flexal® Feel Nitrile Exam Gloves offer such a natural fit that you can feel what you've been missing. And they're so comfortable, you may even forget you're wearing them. Enjoy the comfort, and get the protection and feel you need.

Features and Benefits:

- Textured fingertips
- Natural feel and fit
- Form fitting
- Tactile sensitivity
- Lightweight, yet strong

This glove has been tested for permeation of various chemicals per ASTM F 739, "Standard Test Method for Permeation of Liquids and Gases through Protective Clothing Materials Under Conditions of Continuous Contact."

Cat. No.	Size	Pkg.
88TT20XS	X-Small	300/bx, 3,000/cs
88TT21S	Small	300/bx, 3,000/cs
88TT22M	Medium	300/bx, 3,000/cs
88TT23L	Large	300/bx, 3,000/cs
88TT24XL	X-Large	250/bx, 2,500/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Cool Blue
- Nominal fingertip thickness: 3.1 mil (0.08mm)

Esteem[®] Stretchy Nitrile

Powder-Free Non-Sterile Nitrile Examination Gloves

Esteem[®] Stretchy Nitrile examination gloves are soft and flexible. The gloves recover shape quickly and effectively mold to the hands for a comfortable fit.

Features and Benefits:

- Available either fingertip textured or fully textured on both fingers and palms for a sure grip, even when wet
- Provide tactile sensitivity while maintaining strength and barrier protection
- Appropriate for those with a natural rubber latex sensitivity

8856NMB	Medium	150/bx, 1500/cs
8857NLB	Large	150/bx, 1500/cs
8858NXLB	X-large	130/bx, 1300/cs
8859NXXB	XX-large	130/bx, 1300/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Teal blue
- Nominal fingertip thickness: 4.7 mil (0.12mm)
- Tested for use with numerous chemicals and chemotherapy drugs¹

¹ **Caution:** Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used. Note: Review Safety Data Sheets (SDS) for the chemicals/drugs being used to determine required level of protection.

Low Dermatitis Potential

Powder-Free Nitrile Examination Gloves

Irritant dermatitis is a non-allergic reaction to any of the numerous irritants from both glove and non-glove associated sources. This reaction can leave hands dry, chapped and irritated.

The risk of developing a glove associated irritation can be reduced by choosing a glove that has low residual chemicals, is powder-free, and fits properly.¹ With the Cardinal Health™ Low Dermatitis Potential Powder-Free Nitrile Exam Gloves, now you can treat your hands well while you treat your patients.

Features and Benefits:

- An alternative to vinyl gloves
- Low cost option over premium gloves
- Textured fingertips enable improved grip even when wet
- Lightweight, yet strong
- Beaded cuff
- Manufactured without the use of accelerators
- Appropriate for those with a natural rubber latex sensitivity
- Tested for use with various lab chemicals and chemotherapy drugs²

Note: Testing results are printed directly on the packaging.

Cat. No.	Size	Pkg.
N88LDXS	X-small	200/bx, 10 bx/cs
N88LDS	Small	200/bx, 10 bx/cs
N88LDM	Medium	200/bx, 10 bx/cs
N88LDL	Large	200/bx, 10 bx/cs
N88LDXL	X-large	180/bx, 10 bx/cs

- Powder-free
- Not made with natural rubber latex

8897N	Medium	100/bx, 1000/cs
8898N	Large	100/bx, 1000/cs
8899N	X-large	90/bx, 900/cs
8899NXX	XX-large	90/bx, 900/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Blue
- Nominal fingertip thickness: 5.1 mil (0.13mm)

¹ **Caution:** Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used. Note: Review Safety Data Sheets (SDS) for the chemicals/drugs being used to determine required level of protection.

Esteem[®] XP

Powder-Free Non-Sterile Nitrile Examination Gloves

Esteem[®] XP examination gloves feature a long, beaded cuff that safeguards the hand and wrist against spills and splashes while assisting in easy donning and inhibiting roll-down.

Features and Benefits:

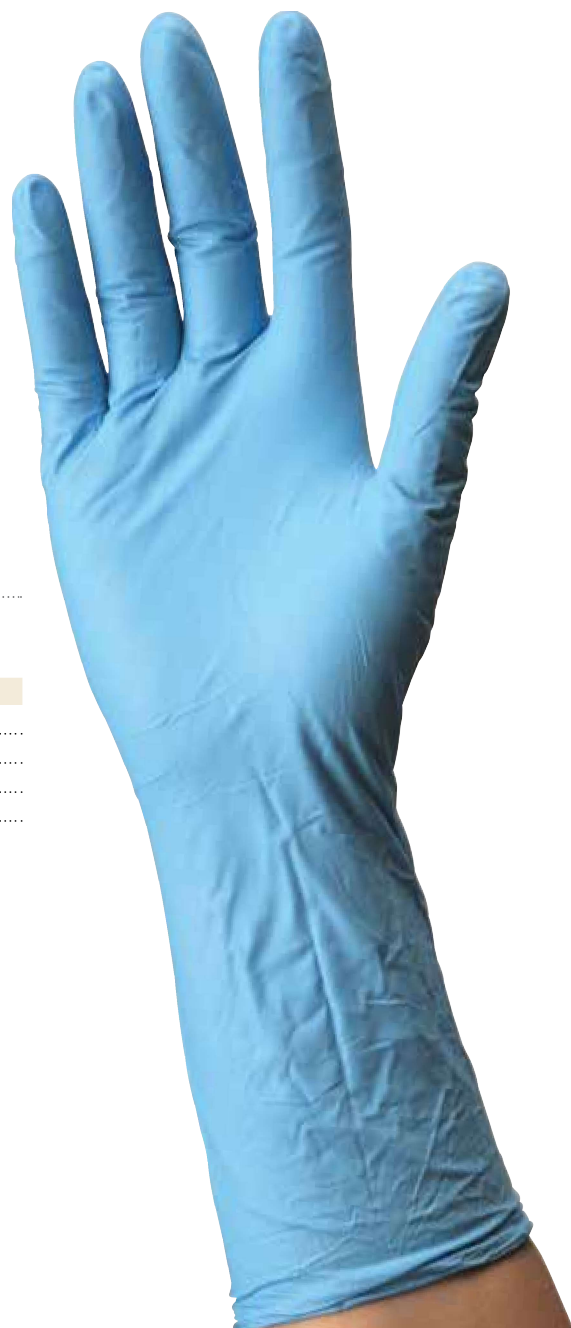

- Provides tactile sensitivity while maintaining strength and barrier protection
- Smooth finish
- Extended cuff provides additional protection in high-risk areas
- Appropriate for those with a natural rubber latex sensitivity
- Tested for use with various lab chemicals and chemotherapy drugs¹

Cat. No.	Size	Pkg.
N8850XP	X-small	50/bx, 500/cs
N8851XP	Small	50/bx, 500/cs
N8852XP	Medium	50/bx, 500/cs
N8853XP	Large	50/bx, 500/cs
N8854XP	X-large	50/bx, 500/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Blue
- Nominal fingertip thickness: 5.5 mil (.14mm)

¹ **Caution:** Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used. Note: Review Safety Data Sheets (SDS) for the chemicals/ drugs being used to determine required level of protection.

XP Plus

Latex Examination Gloves

XP Plus Latex Exam Gloves, with a high glove thickness and extended cuff, offer customers excellent barrier protection for use in the sterile processing departments and other high-risk areas with exposure to potentially infectious materials.

Features and Benefits:

- Highest level of barrier protection in the Cardinal Health™ Exam Gloves portfolio
- Fully textured for a secure grip, even when wet
- Beaded cuff helps facilitate donning and inhibits roll-down
- 12 inch extended cuff
- Tested for use with various lab chemicals and chemotherapy drugs¹

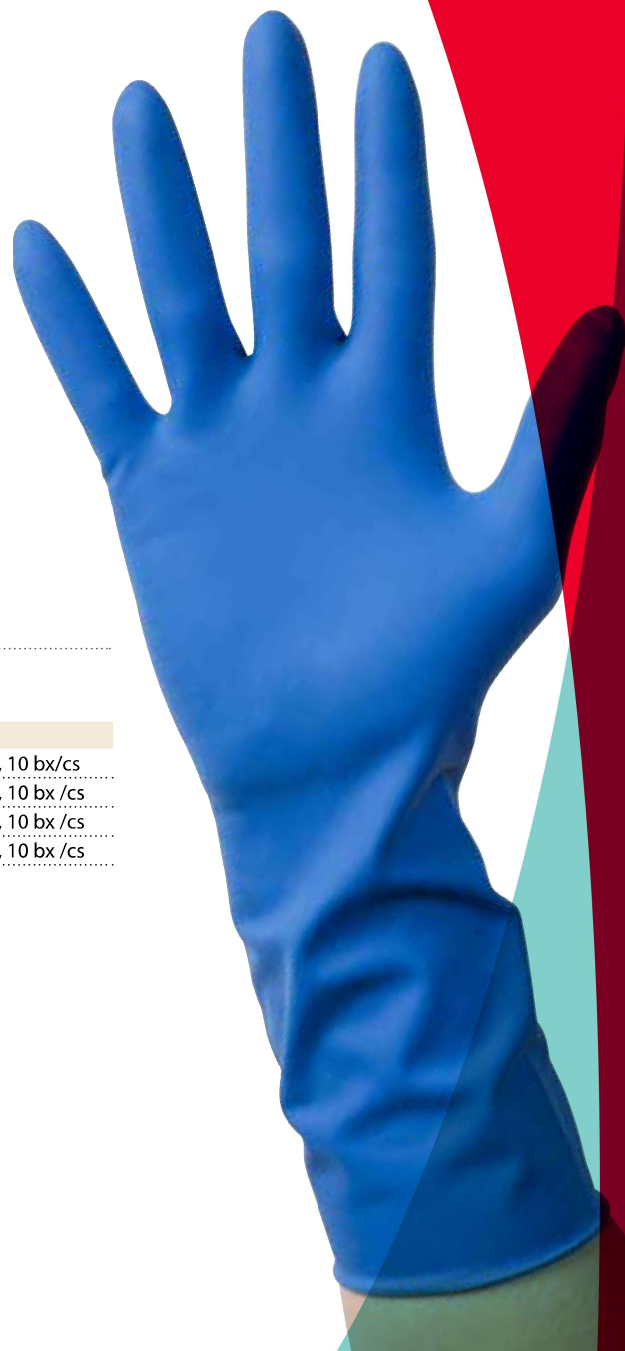

Note: Testing results are printed directly on the packaging.

Cat. No.	Size	Pkg.
L88HRS	Small	50/bx, 10 bx/cs
L88HRM	Medium	50/bx, 10 bx/cs

L88HRXL	X-Large	50/bx, 10 bx/cs

- Powder-free latex
- Ambidextrous
- Color: Blue
- Nominal fingertip thickness: 13mil

¹ **Caution:** Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used. Note: Review Safety Data Sheets (SDS) for the chemicals/ drugs being used to determine required level of protection.

Esteem[®] Stretchy Synthetic

Powder-Free Non-Sterile Vinyl Examination Gloves

Esteem[®] Stretchy Synthetic examination gloves are made from a vinyl formulation that helps provide enhanced elasticity and fit. They are soft and flexible, don easily and feel natural.

Esteem[®] Stretchy Synthetic exam gloves are ideal for short-term use (less than 15 minutes) where there is minimal stress on the glove and a low-to-no risk of exposure to blood or other potentially infectious materials.

Features and Benefits:

- Smooth finish
- Beaded cuff assists in donning and inhibits roll-down
- Manufactured without the use of accelerators
- Appropriate for those with natural rubber latex sensitivity
- Tested for use with various lab chemicals and chemotherapy drugs¹

Cat. No.	Size	Pkg.
8880B	X-small	150/bx, 1500/cs
8881B	Small	150/bx, 1500/cs
8882B	Medium	150/bx, 1500/cs
8883B	Large	150/bx, 1500/cs
8884B	X-large	130/bx, 1300/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Cream
- Nominal fingertip thickness: 4.3 mil (0.11 mm)

¹ **Caution:** Gloves used for protection against laboratory chemical exposure should be selected specifically for the type of chemicals being used. Note: Review Safety Data Sheets (SDS) for the chemicals being used to determine required level of protection.

InstaGard® Synthetic

Powder-Free Non-Sterile Vinyl Examination Gloves

InstaGard® Synthetic examination gloves are made from polyvinyl chloride or PVC. They can be used for short-term clinical applications with low risk of exposure to potentially infectious materials, such as changing bed linens and transporting patients. InstaGard® Synthetic gloves are a great choice for anyone looking for a cost-effective glove for general patient care.

Features and Benefits:

- Smooth finish
- Beaded cuff facilitates donning
- Manufactured without the use of accelerators
- Appropriate for those with natural rubber latex sensitivity

Cat. No.	Size	Pkg.
8886IB	Small	150/bx, 1500/cs
8887IB	Medium	150/bx, 1500/cs
8888IB	Large	150/bx, 1500/cs
8889IB	X-large	130/bx, 1300/cs

- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Color: Transparent
- Nominal fingertip thickness: 3.5 mil (0.09mm)

Esteem[®] with Neu-Thera[®]

Coated Powder-Free Non-Sterile Synthetic Examination Gloves

Esteem[®] with Neu-Thera[®] allows you to moisturize your skin while you work.

Cardinal Health developed a line of premium examination gloves coated with a unique and proprietary emollient: Neu-Thera[®], which offers dermal conditioning benefits for the wearer.

Esteem[®] exam gloves with Neu-Thera[®] moisturize the skin for deep-down relief and helps to soothe dry, flaking and irritated skin

Features and Benefits:

- Available in either stretchy nitrile or vinyl
- Promotes hand hygiene
- Provide a secure grip, even when wet
- Same fit, feel and comfort you've come to expect from all of our Esteem[®] Stretchy gloves
- Appropriate for those with a natural rubber latex sensitivity

8844XL	X-large	100/bx, 10 bx/cs

- Powder-free latex
- Ambidextrous
- Color: Cream
- Nominal fingertip thickness: 4.7 mil

Handling hazardous chemicals and drugs can present a significant risk to healthcare professionals. To reduce the potential for harmful effects on healthcare workers exposed to such drugs, the appropriate selection and use of gloves is critical.^{1, 2, 3, 4}

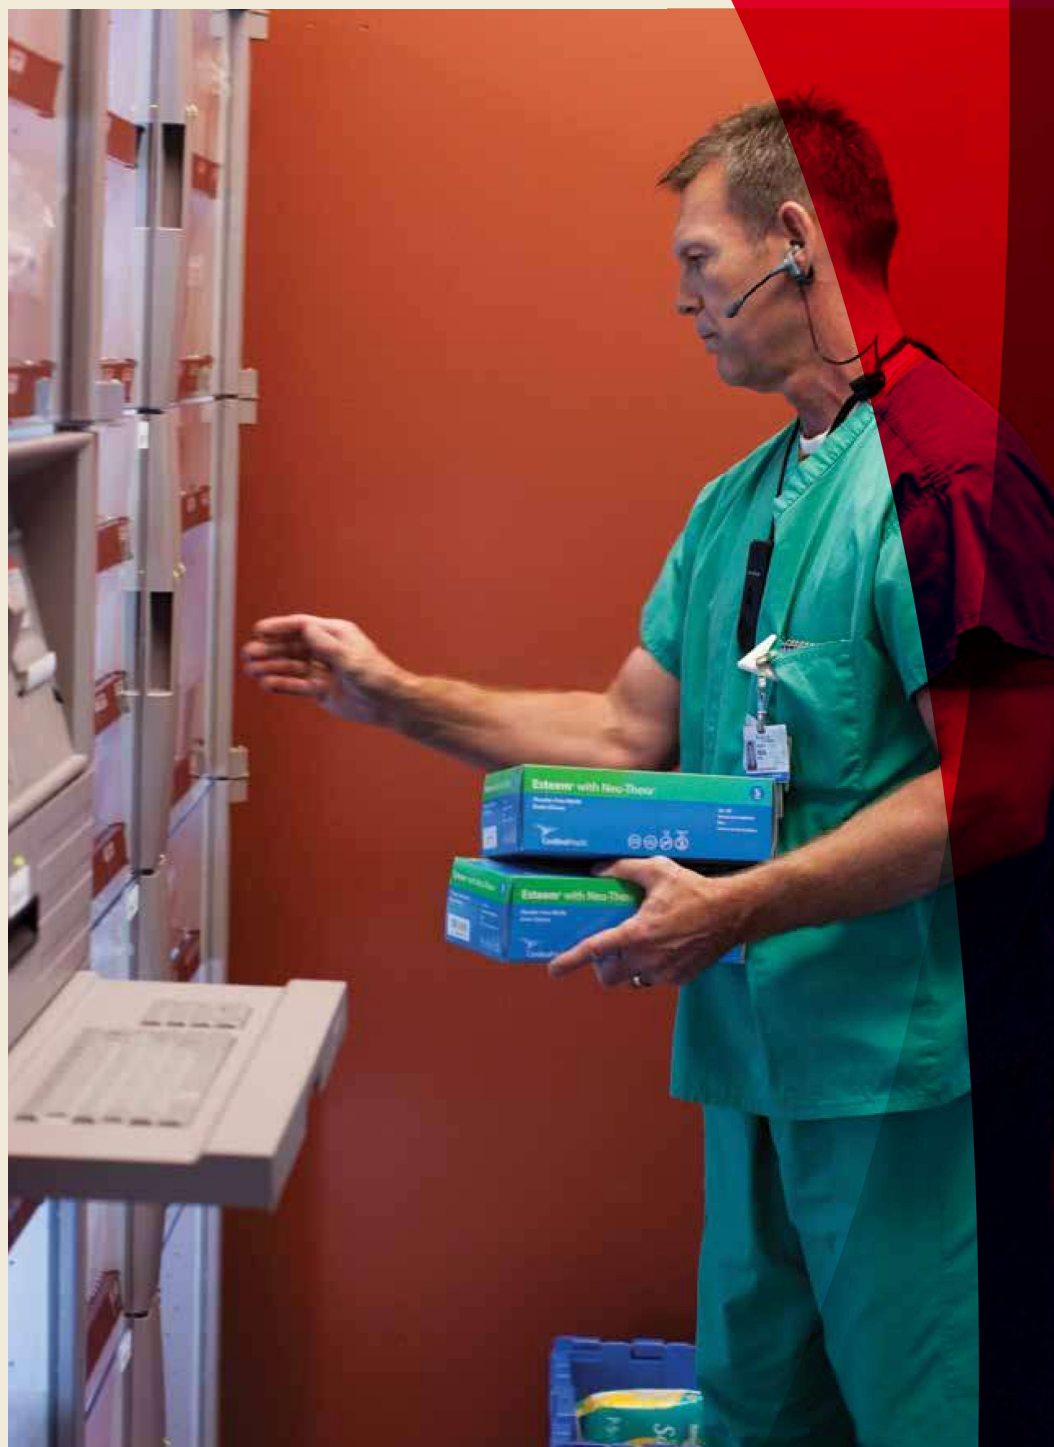

- Select powder-free, high-quality gloves that meet ASTM D6978 (Standard Practice for Assessment of Resistance of Medical Gloves for Permeation by Chemotherapy Drugs) and ASTM F739 (Standard Test Method for Permeation of Liquids and Gases Through Protective Clothing Materials Under Conditions of Continuous Contact).
- Double glove for all activities involving hazardous drugs.
- Change gloves at least every 15 minutes or immediately when torn, punctured or knowingly contaminated.

Flexam[®] Sterile Nitrile

Powder-Free Sterile Nitrile Examination Gloves

Flexam[®] Sterile Nitrile examination gloves offer all the comfort and protection of our Stretchy Nitrile gloves, but are sterilized. They're soft and flexible, don easily and feel natural while in use. But they also provide the high level of protection you need in demanding clinical situations. They deliver excellent freedom of movement and tactile sensitivity. Flexam[®] Sterile Nitrile exam gloves are available in either singles or pairs.

Features and Benefits:

- Stretchy nitrile formulation conforms to hands
- Microtextured surface for a sure grip
- 11 in. beaded cuff provides added protection
- Appropriate for those with natural rubber latex sensitivity
- Tested for use with numerous chemicals and chemotherapy drugs¹

Singles

Cat. No.	Size	Pkg.

¹ **Caution:** Gloves used for protection against chemotherapy drug and laboratory chemical exposure should be selected specifically for the type of chemicals being used. Note: Review Safety Data Sheets (SDS) for the chemicals/drugs being used to determine required level of protection.

Triflex[®] Sterile Vinyl

Powder-Free Sterile Vinyl Examination Gloves

Triflex[®] Sterile Vinyl examination gloves are made from the same material as our Stretchy Synthetic gloves, offering tactile sensitivity and freedom of movement. Packaged in singles or pairs, the gloves are suitable for sterile tasks of short duration (less than 15 minutes) such as minor suture removals and dressing changes.

Features and Benefits:

- Vinyl formulation enhances elasticity and fit
- Smooth finish
- Beaded cuff facilitates donning and inhibits roll down
- Manufactured without the use of accelerators
- Appropriate for those with natural rubber latex sensitivity
